GYMNASTICS MAKES YOU SMARTER?

WHO KNEW?

We did! Studies have found that gymnastics develops the vestibular mechanism which literally grows the brain! As a result, coordination and control of the body improve. *The earlier children begin gymnastics the better their development will be.* This not only means children involved in gymnastics will be great gymnasts, or athletes in general, there are academic benefits as well. Here at Ocean State Gymnastics Center we have a talented, highly trained staff who work with children from the age of 15 months. You'll be amazed at our "state-of-the-art" facility! You can't get better training anywhere! Call to reserve your spot now at 401-333-1530. We're not just creating great gymnasts, we're developing better kids™.
